### **Fowl Detectives: Using Physical Exam & Clinical Signs to Diagnose Poultry Diseases**

Presenter: [Teresa Y. Morishita](#), DVM, PhD, DACPV

Sunday, **August 15** – 3 pm EDT (New York)

[What time is this in my time zone?](#)

**REGISTER NOW**

Backyard and/or small flock poultry medicine is growing and the need to serve the medical needs of this animal population are in much demand. This live, interactive, distance-learning event will serve as a terrific refresher on common poultry diseases. In this seminar, Dr. Morishita will explore the basic approach to the poultry patient, including:

- Unique anatomical features that affect clinical approach
- The thorough history required to narrow a differential diagnosis list
- Physical examination
- Common diseases of backyard poultry

#### Lecture outline:

### **About LafeberVet**

[LafeberVet](#) is an ever-growing online library of exotic animal medicine videos, articles, client education material, forms, questionnaires, and much more. Provided by Lafeber Company, LafeberVet is for use by veterinarians, veterinary nurses, wildlife rehabilitators, students in these fields, as well as allied professionals. Access to much of LafeberVet's content is restricted however, registration is free.

### **About Lafeber Company**

[Lafeber Company](#) was built by a father-son team of veterinarians with a shared love of animals and a special passion for birds. Dr. T.J. Lafeber developed the very first commercial bird food pellets in the back room of his veterinary clinic in the early 1970's. Today, our exotic animal diets and critical care formulas are developed by his son, Dr. Ted Lafeber, III along with top veterinarians and nutritionists. An independent laboratory tests every diet to insure optimum pet health. Lafeber Company also consults leading experts in behavior so that our diets promote dietary enrichment.
