

Lafeber Company Veterinary Medical Student Program

Lafeber Company supports the growth of zoological medicine in veterinary schools.

Sponsorship of the college's exotic animal medicine club(s)

On an annual basis, Lafeber Company will sponsor a **speaker or continuing education event** for your institution related to the broad field of zoological medicine. Your exotics club is encouraged to solicit or suggest specific speakers or speaker topics. Student Program requests are reviewed on a rolling basis, evaluating need, cost, relativity, and outreach benefit. The student representative(s) will help to coordinate or facilitate this sponsorship event.

Lafeber Company pledges sponsorship on an annual basis, however representatives can also request funding for additional events. Be sure to provide event details (who, what, when, where, plus how much money is requested). Lafeber Company will be most likely to support events that impact a wide variety of individuals, including not only veterinary medical students, but also faculty, veterinary technicians, as well as veterinary health care professionals in the region.

Reduced cost food program

Lafeber Company Student Program **prices are reduced by 65%** from retail. (*Please note:* LafeberVet prices are already reduced when compared to retail. So use of the coupon code will not reduce prices by 65%).

Using a monthly coupon code distributed by the student representative, College of Veterinary Medicine personnel, including veterinary medical students, house officers, faculty members, and staff, can order Lafeber Company products online.

There is a \$20 minimum for coupon code orders. Product is shipped directly to the address provided for free. *Please note:* Reselling product is strictly prohibited and will result in discontinuation of sales.

Lafeber-EmerAid products are offered to the teaching hospital for care of in-house patients

Where applicable, the teaching hospital or affiliated animal care resources, like university wildlife rehabilitation or laboratory facilities, can utilize an **annual credit** for product costs. This credit renews at the beginning of each school year. The student representative will take a monthly order from the hospital service.

Please Note: These products are not to be resold. Abuse of this program can result in program discontinuation.

Student representative compensation

The representative position pays \$60 per month. Co-representatives will share the pay. Replacement of lost checks will require a \$5 re-issue fee.

A brief Monthly Report of tasks completed is required for compensation. Complete the form and send it directly to LafeberStudents@mac.com. You should receive confirmation via email that your report was received within 3 business days. Reports must be received within 3 months. For instance, a report dated September 2022 should be received by January 1, 2023 at the latest.

The Student Program should ideally be active through both fall and spring semesters. Activities during the summer months are appreciated but not required. Compensation over summer break will only be provided in return for active duty (*see below*).

Student representative duties

1. **Disseminate the LafeberVet monthly coupon code to college personnel**
2. **Collect monthly orders from the zoological medicine service using an annual credit.**
3. **Support Lafeber Company sponsorship of the school's exotics club**
 - Submit suggestions for speakers or topics that will be well received at your institution.
 - Facilitate the speaker's distance-learning event with your institution.
4. **Distribute Lafeber-EmerAid brochures & samples during CE events**
5. **Submit a monthly report on Student Program activities**

Submit the report to LafeberStudents@mac.com. Receipt of this report is necessary for compensation. Co-representatives will share the pay.
6. **Let Lafeber Company know how it can best meet student needs.** Representatives can request funding for additional events. Be sure to provide details on the event (who, what, when, where, plus how much money is requested). Lafeber Company will be most likely to support events that impact a wide variety of individuals including students, faculty, veterinary technicians, and visiting veterinary health care professionals.

Contact Dr. Christal Pollock with any questions or concerns about your Student Representative duties at (216) 212-3912 or LafeberStudents@mac.com
