A press release is included in the body of this message and can also be [downloaded from LafeberVet](#).

Free, live, interactive LafeberVet webinar*

[Clinical Pathology of Herptiles](#)

Presenter:

[J. Jill Heatley](#),

MS, DVM, DABVP (Avian Practice,
Reptile & Amphibian Practice), DACZM

Wednesday, January 15

12 pm EST (New York)
(UTC -5)

[What time is this in my time zone?](#)

REGISTER NOW

Clinicopathologic evaluation of herptiles is useful for health assessment and monitoring. There are specific considerations when evaluating data from this taxonomic group, including sex, age, time of year/season, reproductive status, diet, captive versus wild, geographic location, methodology, and anticoagulant. This webinar discusses hematology, biochemistry, and urinalysis features of reptiles and amphibians as well as the clinical relevance of test results.

Lecture Outline

Photo: Dr. Sean Perry

- A. Sample handling
- B. Foundational comparative enzymology studies
- C. Major blood/plasma/serum proteins
- D. Acute phase reactants
- E. Biomarkers for consideration
- F. Symmetric dimethylarginine (SDMA)
- G. Lactate
- H. Bile acids
- I. Ionized calcium

RACE approval pending

* RACE approval is pending for 1 hour of continuing education credit for veterinarians and veterinary technicians in jurisdictions that recognize American Association of Veterinary State Boards (AAVSB) Registry of Approved Continuing Education (RACE) approval.

About LafeberVet

LafeberVet is an ever-growing online library of exotic animal medicine continuing education resources, videos, articles, client education material, forms, questionnaires, and more. Provided by Lafeber Company, LafeberVet is for use by veterinarians, veterinary nurses, wildlife rehabilitators, students in these fields, as well as allied professionals. Access to much of LafeberVet's content is restricted however, registration is free.

About Lafeber Company

Lafeber Company was built by a father-son team of veterinarians with a shared love of animals and a special passion for birds. Dr. T.J. Lafeber developed the very first commercial bird food pellets in the back room of his veterinary clinic in the early 1970s. Today, our exotic animal foods and critical care formulas are developed by his son, Dr. Ted Lafeber III, his granddaughter Nadine Lafeber, along with top veterinarians and nutritionists. An independent laboratory tests every diet to ensure optimum nutrition for pet health. Lafeber Company also consults leading experts in behavior so that our foods promote dietary enrichment.
