Dear [Recipient Name] Fallback]

I hope your organization will be interested in sharing information about a free, live LafeberVet webinar "*Hazardous Habitats: Protecting Zoological Companion Animals From Everyday Toxins*" with its members. This event will be presented by [Sarah Ozawa](#), DVM, DACZM. A press release is included in the body of this message and can also be [downloaded from LafeberVet](#).

Hazardous Habitats:

Protecting Zoological Companion Animals From Everyday Toxins

**FREE, live, interactive LafeberVet webinar
RACE-approved for 1 credit hour***

Presenter: [Sarah Ozawa](#), DVM, DACZM

Wednesday, April 30

12 pm EDT (New York) (UTC -04:00)

What time is this in my time zone?

REGISTER NOW

Zoological companion animals (ZCA) are frequently exposed to potential toxins both inside and outside the home. While some toxins pose a universal risk, others are species-specific, such as avocados in birds and fipronil in rabbits. This webinar explores common and unique toxins affecting ZCA species, providing insights into diagnosis and treatment where applicable.

Lecture outline

1. Toxicosis: prevalence, diagnosis, decontamination
2. Toxins by taxonomic groups
 1. Reptiles
 2. Birds
 3. Mammals

* This program is approved for 1.0 hour of continuing education credit for veterinarians and veterinary technicians in jurisdictions that recognize American Association of Veterinary State Boards (AAVSB) Registry of Approved Continuing Education (RACE) approval.

About LafeberVet

LafeberVet is an ever-growing online library of exotic animal medicine continuing education resources, videos, articles, client education material, forms, questionnaires, and more. Provided by Lafeber Company, LafeberVet is for use by veterinarians, veterinary nurses, wildlife rehabilitators, students in these fields, as well as allied professionals. Access to much of LafeberVet's content is restricted however, registration is free.

About Lafeber Company

Lafeber Company was built by a father-son team of veterinarians with a shared love of animals and a special passion for birds. Dr. T.J. Lafeber developed the very first commercial bird food pellets in the back room of his veterinary clinic in the early 1970s. Today, our exotic animal foods and critical care formulas are developed by his son, Dr. Ted Lafeber III, his granddaughter, Nadine Lafeber, along with top veterinarians and nutritionists. An independent laboratory tests every diet to ensure optimum nutrition for pet health. Lafeber Company also consults leading experts in behavior so that our foods promote dietary enrichment.
